The Molly Maguires and the Detectives Allan Pinkerton

To keep the peace in the coal mines, the Pinkerton agency goes to war

The Civil War is over, and the Union is rebuilding using the power of coal—black rock dug from deep beneath the Pennsylvania earth by men from all over the globe who are seeking their fortune in America. In the 1870s, the miners are unionizing to fight for better working conditions, but within their ranks lurks a secret society whose aim is not so pure. It calls itself the Mollie Maguires, and its adherents are ready to kill to get what they want.

Fearing a bloodbath, the head of one of the coal-mining firms reaches out to Allan Pinkerton, founder of the famous detective agency, and begs him to break up the sinister ring. Pinkerton sends James McParlan undercover among the miners, the first soldier in a three-year battle against the radicals that will change the face of American labor forever.

This ebook features a new introduction by Otto Penzler and has been professionally proofread to ensure accuracy and readability on all devices.
