This book is dedicated to the dreamers, their dreams, and their perseverance in research work. This volume brings together the selected and peer-reviewed contributions of the participants at the COST 2102 International Conference on Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction, held in Patras, Greece, October 29–31, 2007, hosted by the 19th IEEE International Conference on Tools with Artificial Intelligence (ICTAI 2008). The conference was sponsored by COST (European Cooperation in the Field of Scientific and Technical Research, [www.cost.esf.org](http://www.cost.esf.org)) in the domain of Information and Communication Technologies (ICT) for disseminating the advances of the research activity developed within COST Action 2102: “Cross-Modal Analysis of Verbal and Nonverbal Communication”(www.cost2102.eu). COST Action 2102 is a network of about 60 European and 6 overseas laboratories whose aim is to develop “an advanced acoustical, perceptual and psychological analysis of verbal and non-verbal communication signals originating in spontaneous face-to-face interaction, in order to identify algorithms and automatic procedures capable of identifying the human emotional states. Particular care is devoted to the recognition of emotional states, gestures, speech and facial expressions, in anticipation of the implementation of intelligent avatars and interactive dialogue systems that could be exploited to improve user access to future telecommunication services”(see COST 2102 Memorandum of Understanding (MoU) [www.cost2102.eu](http://www.cost2102.eu)).

They are really reading whatever they have because their hobby is reading a book. What about the person who don't like looking at a book? Sometime, man or woman feel need book if they found difficult problem as well as exercise. Well, probably you should have this Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction: COST Action 2102 International Conference, Patras, Greece, October 29-31, ... Papers (Lecture Notes in Computer Science).

**Wendell Darnell:**

Book is to be different per grade. Book for children until adult are different content. We all know that that book is very important for all of us. The book Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction: COST Action 2102 International Conference, Patras, Greece, October 29-31, ... Papers (Lecture Notes in Computer Science) seemed to be making you to know about other knowledge and of course you can take more information. It is extremely advantages for you. The guide Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction: COST Action 2102 International Conference, Patras, Greece, October 29-31, ... Papers (Lecture Notes in Computer Science) is not only giving you a lot more new information but also to be your friend when you feel bored. You can spend your personal spend time to read your e-book. Try to make relationship using the book Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction: COST Action 2102 International Conference, Patras, Greece, October 29-31, ... Papers (Lecture Notes in Computer Science). You never experience lose out for everything should you read some books.

**Lillian Robbins:**

Now a day people who Living in the era wherever everything reachable by interact with the internet and the resources within it can be true or not demand people to be aware of each data they get. How people have to be smart in having any information nowadays? Of course the answer is reading a book. Reading a book can help people out of this uncertainty Information mainly this Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction: COST Action 2102 International Conference, Patras, Greece, October 29-31, ... Papers (Lecture Notes in Computer Science) book since this book offers you rich information and knowledge. Of course the details in this book hundred % guarantees there is no doubt in it you probably know this.

**Stephen Porter:**

A lot of publication has printed but it differs. You can get it by internet on social media. You can choose the top book for you, science, witty, novel, or whatever by searching from it. It is called of book Verbal and Nonverbal Features of Human-Human and Human-Machine Interaction: COST Action 2102 International Conference, Patras, Greece, October 29-31, ... Papers (Lecture Notes in Computer Science). You can contribute your knowledge by it. Without causing the printed book, it could possibly add your knowledge and make a person happier to read. It is most critical that, you must aware about guide. It can bring you from one destination for a other place.
