Abbey Road: The Best Studio in the World Alistair Lawrence

Abbey Road studios have been on the cutting edge of recording for eighty years, hosting some of the biggest names in music over the decades: the Beatles, of course, who immortalized it with the title of their 1969 album; Pink Floyd; Kate Bush; Duran Duran; Radiohead; Florence and the Machine. Any number of albums made here have gone gold or platinum, picking up Grammys and other awards along the way. Famed producers and sound engineers at the studios have developed groundbreaking new techniques, including automatic double tracking at the instigation of John Lennon. And it's also been a landmark in moviemaking: here were recorded John Williams's original scores for five *Star Wars* films, as well the scores for the *Lord of the Rings* trilogy—two of them awarded Oscars. This gorgeous book includes a full history and time line, facts and figures, a discography with famous album covers from the 1930s to now, and a wealth of never-before-seen photos and treasures from the studio's own archive. It's an incredible document of cultural history, for anyone who values music and how it's made.
