Successful School Leadership Preparation and Development (Advances in Educational Administration) Karen L. Sanzo

This book features lessons learned about the successful implementation of leadership program preparation and development programs that are grant-funded by the United States Department of Education through the School Leadership Program. Each chapter highlights one or more practices that have been identified as a best practice by the literature and detail how the program implemented the practice(s). It is clear from the literature what should be done to prepare aspiring and current leaders (i.e. mentoring, in-depth internships, partnerships) but what is not clear is how to do this. This book does exactly that with real-life experiences in the implementation of these practices (including successes, challenges, etc.). These are authentic examples from the field about how practitioners have addressed challenges in implemented successful activities such as coaching, the internship, evaluating projects, and forging partnerships with preparation entities.
