How to Design and Evaluate Research in Education with PowerWeb Jack R Fraenkel, Norman E. Wallen

This comprehensive introduction to educational research covers the most widely used research methodologies and discusses the research process in detail. Step-by-step analysis of real research studies provides students with practical examples of how to prepare their work and read that of others. End-of-chapter problem sheets, comprehensive coverage of data analysis, and discussion of the preparation of research proposals and reports make the text appropriate for courses that focus on doing research as well as for courses that stress reading and understanding research.
