Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) William R. Sutton, Jitendra P. Srivastava, James E. Neumann, Kenneth M. Strzepek, Brent B. Boehlert

Agriculture is one of the most climate-sensitive of all economic sectors. In many countries, such as in FYR Macedonia, the risks of climate change are an immediate and fundamental problem because the majority of the rural population depends either directly or indirectly on agriculture for their livelihoods. The risks of climate change to agriculture in FYR Macedonia cannot be effectively dealt with?and the opportunities cannot be effectively exploited?without a clear plan for aligning agricultural policies with climate change, developing the capabilities of key agricultural institutions, and making needed investments in infrastructure, support services and on-farm improvements. Developing such a plan ideally involves a combination of high-quality quantitative analysis, consultation with key stakeholders, particularly farmers and local agricultural experts, and investments in both human and physical capital. The experience of FYR Macedonia, highlighted in this work, shows that it is possible to develop a plan to meet these objectives?one that is comprehensive and empirically driven as well as consultative and quick to develop. The approach of this study is predicated on strong country ownership and participation, and is defined by its emphasis on “win-win” or “no regrets” solutions to the multiple challenges posed by climate change for farmers in FYR Macedonia. The solutions are measures that increase resilience to future climate change, boost current productivity despite the greater climate variability already occurring, and limit greenhouse gas emissions. Reducing The Vulnerability of FYR Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options applies this approach to the FYR Macedonia with the goal of helping the country mainstream climate change adaptation into its agricultural policies, programs, and investments. The study projects impacts of climate change on agriculture across FYR Macedonia's three agro-ecological areas through forecast variations in temperature and rainfall patterns so crucial to farming. It offers a map for navigating the risks and realizing the opportunities, outlined through a series of consultations with local farmers. A detailed explanation of the approach is provided for those who would like to implement similar programs in other countries of Europe, Central Asia, or anywhere else in the world. This is one of four country studies that were produced under the World Bank's program, “Reducing Vulnerability to Climate Change in European and Central Asian Agricultural Systems”. The other countries included in this series are Albania, Moldova, and Uzbekistan. The results from the four studies are consolidated in the book *Looking Beyond the Horizon: How Climate Change Impacts and Adaptation Responses Will Reshape Agriculture in Eastern Europe and Central Asia* website.

From reader reviews:

Katherine Sherrer:

Have you spare time to get a day? What do you do when you have considerably more or little spare time? Yep, you can choose the suitable activity for spend your time. Any person spent their spare time to take a stroll, shopping, or went to the particular Mall. How about open or read a book titled Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies)? Maybe it is being best activity for you. You already know beside you can spend your time along with your favorite's book, you can wiser than before. Do you agree with their opinion or you have some other opinion?

Jimmy Putnam:

Book is definitely written, printed, or outlined for everything. You can recognize everything you want by a e-book. Book has a different type. As we know that book is important factor to bring us around the world. Next to that you can your reading expertise was fluently. A reserve Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) will make you to end up being smarter. You can feel much more confidence if you can know about almost everything. But some of you think which open or reading a book make you bored. It's not make you fun. Why they are often thought like that? Have you seeking best book or appropriate book with you?

Edward Carroll:

This Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) book is simply not ordinary book, you have after that it the world is in your hands. The benefit you obtain by reading this book is information inside this e-book incredible fresh, you will get information which is getting deeper a person read a lot of information you will get. That Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) without we recognize teach the one who studying it become critical in considering and analyzing. Don't possibly be worry Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) can bring once you are and not make your handbag space or bookshelves' turn out to be full because you can have it with your lovely laptop even telephone. This Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) having great arrangement in word and also layout, so you will not experience uninterested in reading.

Stella Neal:

You may spend your free time you just read this book this book. This Reducing the Vulnerability of the Former Yugoslav Republic of Macedonia's Agricultural Systems to Climate Change: Impact Assessment and Adaptation Options (World Bank Studies) is simple to develop you can read it in the park your car, in the beach, train and soon. If you did not include much space to bring often the printed book, you can buy typically the e-book. It is make you simpler to read it. You can save typically the book in your smart phone. And so there are a lot of benefits that you will get when one buys this book.
