## **Conflict Resolution in Early Childhood: Helping Children Understand, Manage, and Resolve Conflicts**

Edyth J. Wheeler

This book examines the nature of conflict among 2- to 8-year-olds from a research-based, constructivist/ecological perspective. The author thoroughly discusses children's conflicts, emphasizing that peer and community culture make up the foundation for preventing and resolving conflict, and advocates teaching conflict resolution skills via a "three-layer-cake" of understanding, management, and resolution. Integrating themes of caring, building classroom community, connecting curriculum, involving family and community, and responding to the current educational climate. Coverage presents ways to create a caring classroom - both in physical environment and curriculum, to work with other adults in a child's life, and to implement peer mediation. Throughout, the material stresses the need to understand *all* children in light of applicable theory and current "best practice" in culturally responsive and inclusive classrooms. For current and prospective teachers, guidance counselors, and daycare providers.
