Excerpt from Early Diplomatic Relations Between the United States and Mexico

The diplomatic relations between the United States and Mexico before 1830 have heretofore been passed over rapidly by students in this field of history in order to dwell more fully on the events leading to the Texas Revolution, the admission of Texas into the Union, and the war between the United States and Mexico. Partial explanations have been made of the attempts of the Adams administration in 1827 and the Jackson administration in 1829 to acquire peaceably by purchase the whole or a part of Texas. Hostility to Poinsett because of his relations with Mexican officials and his connection with the organization of lodges of York Masons has been frequently mentioned, to be bitterly condemned by many, enthusiastically praised by others, and mildly excused by a few, but adequately explained by none.

Practically no attention has been paid to the difficulties and consequent delays in the establishment of a permanent representation of Mexico in Washington, or the much longer and much less excusable delays in the selection and sending of a United States minister to Mexico.
