Computer Systems: A Programmer's Perspective (3rd Edition)

Randal E. Bryant, David R. O'Hallaron

Computer Systems: A Programmer's Perspective (3rd Edition) Randal E. Bryant, David R. O'Hallaron & standalone product; MasteringEngineering® does not come packaged with this content. If you would like to purchase both the physical text and MasteringEngineering search for 0134123832 / 9780134123837 **Computer Systems: A Programmer's Perspective plus MasteringEngineering with Pearson eText — Access Card Package, 3/e**

Package consists of:

- 013409266X/9780134092669 Computer Systems: A Programmer's Perspective, 3/e
- 0134071921/9780134071923 MasteringEngineering with Pearson eText -- Standalone Access Card -- for Computer Systems: A Programmer's Perspective, 3/e

MasteringEngineering should only be purchased when required by an instructor.

For courses in Computer Science and Programming

Computer systems: A Programmer's Perspective explains the underlying elements common among all computer systems and how they affect general application performance. Written from the programmer's perspective, this book strives to teach readers how understanding basic elements of computer systems and executing real practice can lead them to create better programs.

Spanning across computer science themes such as hardware architecture, the operating system, and systems software, the **Third Edition** serves as a comprehensive introduction to programming. This book strives to create programmers who understand all elements of computer systems and will be able to engage in any application of the field--from fixing faulty software, to writing more capable programs, to avoiding common flaws. It lays the groundwork for readers to delve into more intensive topics such as computer architecture, embedded systems, and cybersecurity.

This book focuses on systems that execute an x86-64 machine code, and recommends that programmers have access to a Linux system for this course. Programmers should have basic familiarity with C or C++.

Also available with MasteringEngineering

MasteringEngineering is an online homework, tutorial, and assessment system, designed to improve results through personalized learning. This innovative online program emulates the instructor's office hour environment, engaging and guiding students through engineering concepts with self-paced individualized coaching. With a wide range of activities available, students can actively learn, understand, and retain even the most difficult concepts.

Students, if interested in purchasing this title with MasteringEngineering, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson representative for more information.

From reader reviews:

Ryan Pearson:

Why don't make it to become your habit? Right now, try to ready your time to do the important act, like looking for your favorite e-book and reading a publication. Beside you can solve your problem; you can add your knowledge by the guide entitled Computer Systems: A Programmer's Perspective (3rd Edition). Try to face the book Computer Systems: A Programmer's Perspective (3rd Edition) as your buddy. It means that it can to become your friend when you really feel alone and beside those of course make you smarter than previously. Yeah, it is very fortunated for you. The book makes you much more confidence because you can know every little thing by the book. So , we should make new experience along with knowledge with this book.

Mary Stockton:

Book is written, printed, or illustrated for everything. You can realize everything you want by a book. Book has a different type. As we know that book is important point to bring us around the world. Close to that you can your reading ability was fluently. A e-book Computer Systems: A Programmer's Perspective (3rd Edition) will make you to become smarter. You can feel far more confidence if you can know about almost everything. But some of you think that open or reading any book make you bored. It is not make you fun. Why they can be thought like that? Have you searching for best book or suitable book with you?

Robert McKay:

As we know that book is very important thing to add our know-how for everything. By a publication we can know everything we wish. A book is a group of written, printed, illustrated as well as blank sheet. Every year was exactly added. This book Computer Systems: A Programmer's Perspective (3rd Edition) was filled in relation to science. Spend your extra time to add your knowledge about your technology competence. Some people has several feel when they reading the book. If you know how big good thing about a book, you can feel enjoy to read a publication. In the modern era like today, many ways to get book that you simply wanted.

Patsy Cassella:

Some people said that they feel bored stiff when they reading a publication. They are directly felt that when they get a half parts of the book. You can choose the book Computer Systems: A Programmer's Perspective (3rd Edition) to make your reading is interesting. Your skill of reading expertise is developing when you like reading. Try to choose simple book to make you enjoy to study it and mingle the sensation about book and reading through especially. It is to be 1st opinion for you to like to available a book and go through it. Beside that the guide Computer Systems: A Programmer's Perspective (3rd Edition) can to be your new friend when you're truly feel alone and confuse with what must you're doing of the time.
