Neurology: Behavior Management and Psychopharmacology in Children with Autism Spectrum Disorders (Audio-Digest Foundation Neurology Continuing Medical Education (CME). Volume 05, Issue 21) Audio Digest

Purpose: Audio-Digest Foundation CME/CE activities are designed to provide its learners – physicians and other healthcare professionals – with continuing education that will help identify clinical problems in their practice settings, provide content to help to solve those problems, and increase their application of knowledge to practice.

Audio-Digest Neurology is specifically designed to provide the participant with knowledge-based competencies identified by the American Board of Psychiatry and Neurology (ABPN) in its Neurology core competencies. These competencies include, but are not limited to:

- Basic neuroscience that is critical to the practice of neurology
- Pathophysiology and treatment of major psychiatric and neurologic disorders and familiarity with the scientific basis of neurology
- Neurologic disorders and diseases across the lifespan
- Psychiatric disorders and diseases across the lifespan
- Patient evaluation and treatment selection
- Employment of principles of quality improvement in practice
