Contextual Intelligence Matthew Kutz

2013 Leadership Book Award for Innovation and Cutting-Edge Perspective Contextual Intelligence is a leadership model that will help you navigate constantly shifting environments. This book integrates a cutting-edge 3D Thinking framework with 12 core behaviors that will help you diagnose your context and lead others to higher levels of performance. Today's leadership landscape is dynamic and challenging. Earlier theories and assumptions appear to be inadequate and over simplistic in their ability to flex with the volatility and complexity of organizations which function in a knowledge economy at a local, national and global level. This book extends the non-Newtonian-based leadership paradigms by integrating the principles of tacit knowledge, synchronicity and time orientation, which are essential competencies for today's leaders.
