The war continues.

In the aftermath of an epic battle, Xanada and Sportica have fought to a stalemate. As each side prepares their next move, the other generals must make decisions. Decisions which could change the very future of Minecraft.

His nation on the verge of collapse, Lord Regent Attano has sent his assassin Yarl to treat with The Wolf, a general possessing advanced medical technology. As Admiral Adam prepares his fleets for battle against the Xanadian Army, Lord Throda seeks for a way to ally with Xanatos at any cost.

As Xanada and Sportica continue the greatest of wars, conflict, betrayal, greed and cheesy humor dominate on a global scale in this, the second of many volumes.
