**Color Atlas and Instruction Manual of Peripheral Blood Cell Morphology** Barbara H. O'Connor MS SH (ASCP)

This essential guide can help readers identify blood type cells, which are difficult to categorize, and explains the morphologic characteristics of peripheral blood cells in detail. Some of the book's features include: color photographs that depict each stage of cell maturation in the exact sequence of development; comparative photographs of difficult-to-identify cells from different cell lines with adjacent diagrams and instructions in chart form; and an explanation of the entire differential procedure, with mathematical guidelines.
