Bible Proven and 666 Solved: How to Calculate the Number of the Beast: Calculation of 666 and its connections to 9-11, the 2012 Mayan Prophecies, and Saint Malachy's Prophecy of the Popes Erik Lee Giles

CS Lewis wrote: "A man who was merely a man and said the sort of things Jesus said would not be a great moral teacher. He would either be a lunatic - on the level with a man who says he is a poached egg - or he would be the devil of hell. You must take your choice. Either this was, and is, the Son of God, or else a madman or something worse. You can shut Him up for a fool or you can fall at His feet and call Him Lord and God. But let us not come with any patronizing nonsense about His being a great human teacher. He has not left that open to us." The calculation of the number of the beast presented here gives us much the same dilemma. Apollyon, of Revelation 9:11, was worshiped at a temple in Delphi, Greece. If you leave this temple and travel at an angle 666 degrees from Delphi, you will cross within 1/6 of 1 degree of both 9-11 targets (the Pentagon and the World trade Center) before ending in New Orleans, which was destroyed by Katrina. The angle of this line and due north form a 36-54-90 triangle. 10 of these triangles form a pentagon, which was a target on 9-11. The Golden Ratio (recently popularized by Dan Brown) is calculated from the angles and dimensions of a pentagon. The victim counts of 9-11 and Katrina formulate the Golden Ratio - twice. Another similar line may be drawn from Jerusalem, to Delphi, to the Vatican and finally to the Tikal (Mayan) temple. Four other lines of this type are illustrated in this book. Either we are witnessing the most outrageous set of coincidences in the history of humanity, or God has left us with information that verifies the accuracy and legitimacy of the bible. God has left no other options open to us. Let the reader decide - coincidence or the hand of God?
