Creation Myths of the World [2 volumes]: An Encyclopedia David A. Leeming

ABC-CLIO's breakthrough reference work on creation beliefs from around the world returns in a richly updated and expanded new edition. From the Garden of Eden, to the female creators of Acoma Indians, to the rival creators of the Basonge tribe in the Congo, *Creation Myths of the World: An Encyclopedia, Second Edition* examines how different cultures explain the origins of their existence.

Expanded into two volumes, the new edition of *Creation Myths of the World* begins with introductory essays on the five basic types of creation stories, analyzing their nature and significance. Following are over 200 creation myths, each introduced with a brief discussion of its culture of origin. At the core of the new edition is its enhanced focus on creation mythology as a global human phenomenon, with greatly expanded coverage of recurring motifs, comparative themes, the influence of geography, the social impact of myths, and more.
