Stories in both English and Spanish. Atlantis: the lost continent is actually us in the future. As we progress in the sciences and technologies we are building Atlantis and somewhere in the future, Atlantis was destroyed as time meets itself with the past and consequently we are finding Atlantis as an ancient civilization of the past, in the present which is actually the future of us as we are the last city in the future, just as the world came to an end. The other short stories will also stimulate the mind and hopefully it is their final version and they're put to rest, and the chicken will thank you, so will the rooster.
