The Life of Machiavelli

John Morley

The Life of Machiavelli John Morley

The greatest of the Florentines has likened worldly fame to the breath of the wind that blows now one way and now another way, and changes name as it changes quarter. From every quarter and all the points of the historical compass, veering gusts of public judgment have carried incessantly along from country to country and from generation to generation, with countless mutations of aspect and of innuendo, the sinister renown of Machiavelli. Before he had been dead fifty years, his name had become a byword and a proverb. From Thomas Cromwell and Elizabeth; from the massacre of St. Bartholomew, through League and Fronde, through Louis XIV., Revolution, and Empire, down to the third Napoleon and the days of December; from the Lutheran Reformation down to the blood and iron of Prince Bismarck; from Ferdinand the Catholic down to Don Carlos; from the Sack of Rome down to Gioberti, Mazzini, and Cavour: in all the great countries all over the West, this strange shade is seen haunting men's minds; exciting, frightening, provoking, perplexing, like some unholy necromancer bewildering reason and conscience by paradox and riddle. So far from withering or fading, his repute and his writing seem to attract deeper consideration as time goes on, and they have never been objects of more copious attention throughout Europe than in the half-century that is now closing
