Building Web, Cloud, and Mobile Solutions with F#

Daniel Mohl

Building Web, Cloud, and Mobile Solutions with F# Daniel Mohl

Learn how to build key aspects of web, cloud, and mobile solutions by combining F# with various .NET and open source technologies. With helpful examples, this hands-on book shows you how to tackle concurrency, asynchrony, and other server-side challenges. You'll quickly learn how to be productive with F#, whether you want to integrate the language into your existing web application or use it to create the next Twitter.

If you're a mid- to senior-level .NET programmer, you'll discover how this expressive functional-first language helps you write robust, maintainable, and reusable solutions that scale easily and target multiple devices.

- Use F# with ASP.NET MVC, ASP.NET Web API, WCF, Windows Azure, HTML5, CSS3, jQuery Mobile, and other tools
- Build next-generation ASP.NET MVC 4 web applications, using F# to do the heavy lifting on the server
- Create WCF SOAP and HTTP web services
- Develop F# web applications and services that run on Windows Azure
- Build scalable solutions that allow reuse by mobile and web front-ends
- Use F# with the WebSharper and Pit frameworks to build end-to-end web stacks

From reader reviews:

Lorenzo McAvoy:

A lot of people always spent all their free time to vacation or go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or even playing video games all day long. If you want to try to find a new activity that is look different you can read some sort of book. It is really fun for you personally. If you enjoy the book that you just read you can spent all day long to reading a publication. The book Building Web, Cloud, and Mobile Solutions with F# it is rather good to read. There are a lot of individuals who recommended this book. We were holding enjoying reading this book. In case you did not have enough space to bring this book you can buy the particular e-book. You can m0ore very easily to read this book from a smart phone. The price is not too costly but this book features high quality.

Belinda Bedard:

Your reading 6th sense will not betray you actually, why because this Building Web, Cloud, and Mobile Solutions with F# reserve written by well-known writer who really knows well how to make book which might be understand by anyone who read the book. Written throughout good manner for you, leaking every ideas and producing skill only for eliminate your own personal hunger then you still question Building Web, Cloud, and Mobile Solutions with F# as good book not only by the cover but also from the content. This is one publication that can break don't determine book by its protect, so do you still needing another sixth sense to pick this kind of!? Oh come on your studying sixth sense already told you so why you have to listening to another sixth sense.

Millard Lopez:

Is it an individual who having spare time and then spend it whole day by watching television programs or just telling lies on the bed? Do you need something new? This Building Web, Cloud, and Mobile Solutions with F# can be the reply, oh how comes? A book you know. You are consequently out of date, spending your time by reading in this brand new era is common not a geek activity. So what these books have than the others?

Sandra Brown:

As a pupil exactly feel bored to be able to reading. If their teacher questioned them to go to the library or even make summary for some guide, they are complained. Just tiny students that has reading's heart or real their hobby. They just do what the educator want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Building Web, Cloud, and Mobile Solutions with F# can make you experience more interested to read.
