Being and Time - Sein und Zeit Martin Heidegger

Being and Time (German: Sein und Zeit, 1927) is a book by the German philosopher Martin Heidegger. Although written quickly, and despite the fact that Heidegger never completed the project outlined in the introduction, it remains his most important work and has profoundly influenced 20th-century philosophy, particularly existentialism, hermeneutics and deconstruction.

Being and Time was originally intended to consist of two major parts, each part consisting of three divisions.[1] Heidegger was forced to prepare the book for publication when he had completed only the first two divisions of part one. The remaining divisions planned for Being and Time (particularly the divisions on time and being, Kant, and Aristotle) were never published, although in many respects they are addressed in one form or another in Heidegger's other works. In terms of structure, Being and Time remains as it was when it first appeared in print; it consists of the lengthy two-part introduction, followed by Division One, the "Preparatory Fundamental Analysis of Dasein," and Division Two, "Dasein and Temporality."
